

My bioSite project will be about my daughter.

As my legacy she has also been my inspiration and proof that I got one thing right. As an young adult she has had a full life with more great things to come. Among her accomplishments, she has been an athlete and scholar. An amazing mother, daughter and wife. She is also a true and honest friend to many.

I plan to focus on her life's accomplishments athletically, academically and personally.

My inspiration is that she is such a kind, generous and sincere person and she is my kid.
